

# YOUR MAXIS GBN GLOBAL REPORTS

Your reports offer a consolidated view of your global employee benefits (EB) programmes. Using financial analytics and trend analysis, your reports are an essential tool designed to help you make well informed decisions about your EB plans and needs worldwide.

## Our reports offer you<sup>1</sup>:

- an easy-to-read consolidated view of the financials of your subsidiaries' global programmes – no need to contact each country individually
- benefits at a glance and summary performance, including a high-level overview identifying the key points of your global programme
- detailed financial data including premiums, claims and reserves
- a breakdown by country and by type of coverage (medical, life, accident, disability)
- the ability to compare the current period against the previous period, to help you spot meaningful changes and trends
- easy-to-understand and fully transparent data analysis – we also provide you with the raw data, allowing you to create your own customised views
- a data management environment compliant with ISO27001, the highest security standard in the industry.

<sup>1</sup> Data in the reports vary depending on the MAXIS solution used and the period covered.

● **MetLife** and **AXA** in partnership

## How we generate our reports:

Our bespoke reinsurance and reporting tool – BRIDGE – allows us to record and validate data from our local insurers (members).

BRIDGE enables us, as a network, to produce centralised, accurate, reliable and timely reports.

Using one single reporting template with our members means that there is consistency across all reports, more accuracy and speedier output – reports can be generated as soon as the data is validated.

MAXIS global reports are available to all clients of our MAXIS Global Captive Solution, MAXIS Global Risk Solution (GRS), MAXIS Global Pool and MAXIS Global Preferred Data Solution (GPDS).

- Quarterly reports are available to clients using the MAXIS Global Captive Solution.
- Annual reports are available to clients using the MAXIS GRS, MAXIS Global Pool and MAXIS GPDS.
- All reports are stored on our secure OneClient portal alongside account documentation and various other digital tools and solutions.
- OneClient is also home to our new interactive pooling, captive and GRS dashboards, providing you with an even easier format to analyse your data.
- The data fields and tabs that appear in the reports vary, depending on the MAXIS solution used and the period covered.
- The Country-specific Benchmark Dashboard provides data on healthcare use in the local portfolio, enabling you to better assess your own experience against market data.
- The Global Incurred Claims Dashboard complements the Paid Claims report by providing census-based utilisation and per member per year metrics.
- The Population Health and Risk Stratification Dashboard uses extensive global medical claims data to allow you to categorise your employees and their dependents by health risk. This allows you to better understand management practices and initiate programmes to help prevent chronic diseases, stabilise current chronic conditions and prevent an acceleration to higher risk categories and higher medical costs.

## MAXIS Global Medical Dashboard Reports

- The MAXIS Global Medical Dashboard Reports are separate to the MAXIS global reports and provide a holistic view of health issues by identifying trends and cost drivers.
- These interactive dashboards available via the OneClient portal will help you see how claims break down in each country and allow for year-over-year trend analysis in a more visual, easier to understand way
- The Paid Claims Dashboard features distribution graphs to show how claims were spent in each country and the 'One World Visual' interface lets you visualise the performance of all your schemes around the world in one place.
- The COVID-19 report aims to explain the effect of the pandemic on your population.
- The disability dashboard shows the connection between disease drivers and disability claims, and other risk factors that could cause disability. It uses a mix of public data and MAXIS claims data to highlight the shape of the disability landscape in each country. We launched this interactive dashboard in March 2023.
- No extra costs or fees for employers using the MAXIS Global Captive Solution.

COVID-19 report

The MAXIS Global Benefits Network ("Network") is a network of locally licensed MAXIS member insurance companies ("Members") founded by AXA France Vie, Paris, France ("AXA") and Metropolitan Life Insurance Company, New York, NY ("MLIC"). MAXIS GBN, a Private Limited Company with a share capital of €4,650,000, registered with ORIAS under number 16000513, and with its registered office at 313, Terrasses de l'Arche – 92727 Nanterre Cedex, France, is an insurance and reinsurance intermediary that promotes the Network. MAXIS GBN is jointly owned by affiliates of AXA and MLIC and does not issue policies or provide insurance; such activities are carried out by the Members. MAXIS GBN operates in the UK through its UK establishment with its registered address at 1st Floor, The Monument Building, 11 Monument Street, London EC3R 8AF, Establishment Number BR018216 and in other European countries on a services basis. MAXIS GBN operates in the U.S. through MAXIS Insurance Brokerage Services, Inc., with its registered office located at c/o Katten Muchin Rosenman LLP, 50 Rockefeller Plaza, New York, NY, 10020-1605, a NY licensed insurance broker. MLIC is the only Member licensed to transact insurance business in NY. The other Members are not licensed or authorised to do business in NY and the policies and contracts they issue have not been approved by the NY Superintendent of Financial Services, are not protected by the NY state guaranty fund, and are not subject to all of the laws of NY.
