

MAXIS GLOBAL CAPTIVE SOLUTION

GAIN CONTROL AND FLEXIBILITY WITH A CAPTIVE

As a multinational employer you are faced with the challenge of providing consistent employee benefits (EB) for your employees globally, while efficiently managing your risk.

A captive is widely considered the most effective and efficient way for a multinational company to run their EB programme. Such a solution allows you to reinsure the risk of your local employee benefits policies to your own captive company, working with a partner like us as a fronting network.

Managing your EB programme through MAXIS Global Captive Solution also enables you to have greater control over the design, and policy terms and conditions, of your EB programmes, such as exclusions, free cover limits and event limits. All of this while you retain underwriting profits from premiums and investment income.

Working with us to set up a MAXIS Global Captive Solution can help you control your risk and brings a number of other benefits as shown on the next page.

Is this the right solution for you?¹

To be able to implement a MAXIS Global Captive solution, you will need to have:

- centralised management of your employee benefits worldwide, with or without an existing captive arrangement
- a minimum of US\$10,000 premium per country
- a minimum of US\$3m premium across all policies.

¹ Further conditions may be placed to access this solution.

What we offer

Together, we can set up your new MAXIS Global Captive Solution. Working with us offers you a number of benefits.

- Access to our MAXIS OneClient portal, a best-in-class digital solution providing a variety of tools, that make it easier to analyse your EB spend, aiding decision-making and cost management. OneClient is the place to go to access your reports and a number of brand-new digital services including:
 - our new digital captive dashboard offering you comprehensive financial data analysis in quarterly and annual reports, showing all income and expenses of the policies included.
 - our MAXIS Global Medical Dashboard reports giving you a holistic view of health issues by identifying country-specific trends and cost drivers. Our dedicated Health & Wellness team will help you evaluate report data and consider practical wellness programmes to help improve the health of your employees
 - MAXIS WIT (Wellness Intelligence Tool) a state of the art, analytics tool that helps you to calculate the potential savings you can make by implementing targeted wellness campaigns²
 - our wellness toolkits to help you implement an awareness campaign in your workplace and health and wellness thought leadership
 - access to our wellness technology marketplace – carefully selected third party suppliers of digital wellness solutions that can be managed globally
 - complimentary subscription to AXCO Insurance Information Services.
- A partnership approach on the diversification of risk to balance your captive reinsurance portfolio and reduce volatility.
- Dedicated account managers at global, regional and local level, working closely with you to resolve any of issues as they arise.
- High levels of governance across almost 140 local insurers (members) in over 120 key markets.
- Strong underwriting expertise at the global level with our local members providing in-depth knowledge of local risk factors.
- Insight and guidance during your renewal process.

2 Available to captives that fall in the 26 countries WIT operates in.
