Your health insurance solution to provide your people with end-to-end care for critical conditions

● MetLife and AXA in partnership

Access to inclusive healthcare should be universal. But unfortunately, it isn't. Every country has different healthcare systems and some even limit healthcare coverage for same sex partners, meaning access to treatment could be a geographic lottery for your people and their loved ones. This is where you can step in and help provide access to the best care possible, regardless of your employee's location.

And coming out of a pandemic that disrupted healthcare services and left many people without access to treatment, it's more important than ever before for multinationals to re-evaluate their healthcare benefits. Employees want healthcare coverage that is designed to help them get the best treatment in the world, should the worst happen.

To help you provide your people access to the best critical illness treatment, we've partnered with Further¹, who offer an end-to-end insurance solution for critical conditions. Designed for the many, not the few, Further helps you offer the best treatment available, wherever your people are based.

As a MAXIS client, you can work with Further and benefit from its Critical Advantage solution² to offer your people treatment, outside of their home country, at a specialist medical centre of excellence of their choosing, for some of the most serious conditions, including:

- cancer treatment
- neurosurgery
- coronary artery by-pass surgery
- heart valve replacement and repair
- live-donor organ & tissue transplant.
